## OPERATION & USAGE TIPS

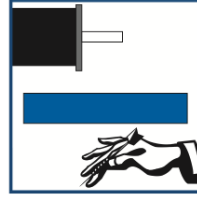

**Do not** disassemble motors; a significant reduction in motor performance will occur.

**Do not** machine shafts; this will have a negative effect on shaft run out and perpendicularity.

**Do not** disconnect motor from drive while in operation.

**Do not** use holding torque/detent torque of motor as a fail safe brake.

**Do not** hold motor by lead wires.

**Do not** exceed the rated current; this will burn the motor.

FAILURE TO COMPLY WITH THESE RECOMMENDATIONS WILL VOID ALL WARRANTY TERMS
